

French American Innovation Day 2020 - Houston / College Station

French-American Innovation Days, organized since 2001 by the Office for Science and Technology of the Embassy of France in the United States, are events that bring together prominent French and American experts to discuss innovation topics in order to foster transatlantic connections in research and innovation.

SMART MANUFACTURING AND AI FOR INDUSTRY 4.0

The Office for Science & Technology of the Consulate General of France Houston organizes, in collaboration with the Texas A&M university and the french *Ecole Nationale Supérieure des Arts et Métiers*, the third edition of the French American Innovation Day in College Station next **February 13th, 2020**. The event will be dedicated to **smart manufacturing and AI for Industry 4.0** and will address these topics :

- **Smart sensors**
- **Advanced AI and data science**
- **Additive and advanced manufacturing**
- **Digital twins and AR/VR**
- **Cybersecurity and advanced computing paradigms**
- **Marketing strategies and Management for Industries 4.0**

The FAID program will be structured around conferences with scientific experts, panel sessions, short sessions of startup presentations (French and American as well) and networking times around posters.
